<H4> Clerked was created by a doctor who wanted medical merchandise that felt simple, modern, and actually wearable. No clipart. No clichés. Just clean designs inspired by real life in healthcare — the small wins, the dry humour, the moments only medics understand. Every piece is made to order, printed responsibly, and created with the same care we bring to our work. Thoughtful, minimal, medical.

While there's no exact limit to the number of links you should include on a page, best practice is to avoid exceeding 200 links. Links pass value from one page to another, but the amount of value that can be passed is split between all of the links on a page. This means that adding unnecessary links will dilute the potential value attributed to your other links. Using the Nofollow attribute prevents value from being passed to the linking page, but it's worth noting that these links are still taken into account when calculating the value that is passed through each link, so Nofollow links can also dilute pagerank.

 **Broken Links**  

No broken links were found on this web page
